HOW TO CODE ROLLER DOOR HAND TRANSMITTER: MODEL RDO10B

1. Here's how to code the remote or wall station for the RDO10B roller door opener.

2. Always make sure you have a safe means of working at height because you will need to comfortably reach the opener.

3. Briefly press the RED learn button, the opener light will flash and bu will appear on the control panel.

4. Press and hold the top button on your hand transmitter. The opener light will flash rapidly and you are all done.

5. If you have got more than one hand transmitter, or to code the wall station, simply repeat this process.
