POPULAR UPGRADES

SIDE AND BOTTOM SEALS

Keep your garage clean and tidy with our optional SIDE AND BOTTOM SEALS. Our seals help prevent leaves, dirt, pests and other nuisances from entering into your garage.

OBSTACLE DETECTION SYSTEM

Our OBSTACLE DETECTION SYSTEM can immediately detect an obstruction by transmitting a light beam across the width of the garage door opening. If the beam is broken, the garage door will reverse its direction before impacting the obstruction.

TIMBALOOK

Add a warm and timeless look to your home facade with our TIMBALOOK series. These doors are made from genuine BlueScope steel and are lighter, easier to maintain, better for the environment, and overall better value than a real timber door!

CUSTOM ALLUMINIUM DOORS

Want to really make your garage door your own? Try our CUSTOM ALLUMINIUM DOORS. Let natural light in with our Sunshine Series, or achieve that modern industrial look with the Architectural series. With over 6 different frame designs, a wide selection of inserts, and 60+ interpon powder coat finishes, your imagination really is the limit!
