2 x remotes

1 x wall button

A powerful and reliable opener that is compatible with a variety of residential and commercial roller doors up to 17m². Our unique compact design makes this unit well-suited to fitting into previously unreachable narrow spaces!

FIT INTO NARROW SPACES

Our latest Euro roller door opener can be fitted into extremely narrow installation situations due to extra compact unit design.

INTERNAL MONITORING

Designed to constantly monitor the door resistance and ensure the power/sensitivity parameters are always maintained.

QUIET & POWERFUL MOTOR

T-Series DC-Motors have been designed from the ground up to suit the rigours of garage door openers.

USER-FRIENDLY CONTROLS

User-friendly digital display with color coded control buttons.

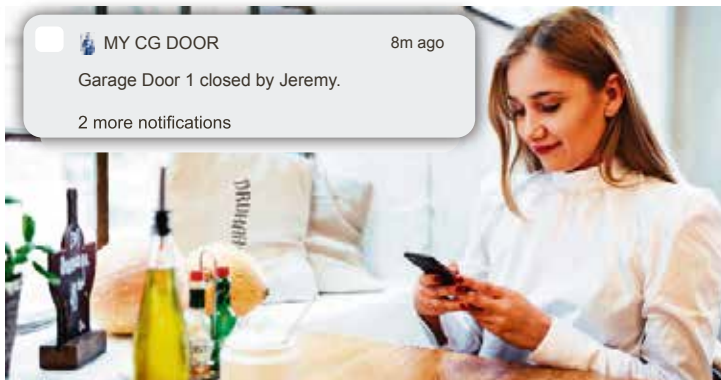

OPTIONAL UPGRADES

See a bird's eye view of the inside of your garage in real-time through your app.

MY CG DOOR SMARTPHONE APP

ULTIMATE CONTROL

- Receive push notifications about your garage door status, including real-time activity log and the ability to customise individual user settings.
- Receive alerts and notifications about your garage door, so that you know your home is always secure.
- Allow contactless access to your garage for parcel & goods delivery, trade access, etc.
- Track the health of your garage door, so you'll know when it is due for a service.
- Give temporary access to your gardener, cleaner, babysitter, or any other visitors, then revoke the permissions when they're done. You don't even have to be home!
- No more worrying about losing the remote or having to buy a replacement. Lost or stolen remotes can be deactivated with just the swipe of a button on your Centurion app.

Featuring In-built Camera!

The new Centurion app allows you to let people into your garage in a way that is safe, secure, and completely contactless! You can receive that urgent parcel delivery and close the garage door once the parcel is safely inside without even having to get up from your couch! It's the ultimate control over your garage door, with superior monitoring for that additional peace of mind.

WIRELESS KEYPAD

Waterproof for external installation. Use a secure 4 digit pin code to operate your door. Ideal for allowing the kids or visitors into the house securely.

OBSTACLE DETECTION SYSTEM

Protect your family with Safety Beams. As soon as an object or person moves through the invisible safety beam, the garage door will stop and reverse to avoid serious injury or damage.

AUTO-LOCK RAIL

This rail features a failsafe mechanical lock, which is automatically engaged once your door is closed. This rail option is a cost-effective security upgrade for your family's protection and peace of mind.
