GARAGE DOORS®

**WE'RE ALL ABOUT
THE RANGE**

THE ARCHITECTURAL SERIES

BUILT TO LAST . MADE TO PERFORM

WE'RE ALL ABOUT STREET APPEAL

Most potential new home buyers decide whether or not to look inside a home based on first impressions - "Street Appeal."

The garage door often makes up more than 50% of the front of modern day homes, therefore the choices you make can have a huge influence on the value of your home.

"Have the best looking home on the block", with a new garage door from our Architectural Series.

WE'RE ALL ABOUT THE RANGE

Our Architectural Series look is achieved by using the latest in composite aluminium sheeting in combination with the negative detail/shadow line created by the powder coated sub frame.

WE'RE ALL ABOUT OUR CUSTOMERS

You choose the layout, design, colour and finish that suits the architectural flair of your home.

WE'RE ALL ABOUT INNOVATION

Our Architectural Series doors feature our innovative nylon hinge system and our exclusive track design that fits in almost 1/2 the head clearance of normal doors giving you much better drive through height.

WE'RE ALL ABOUT SAFETY

Our Architectural Series doors feature our FingerSafe® panel design and exclusive side seal system.

BUILT TO LAST . MADE TO PERFORM

HOW TO BUILD YOUR DOOR IN 2 SIMPLE STEPS

STEP ONE

1. Choose your pattern and sub frame colour. The negative detail/shadow line effect is created by the colour of the subframe, often black, but you can choose from over 60 standard Interpon powdercoat colours.

Single Panel. * Only available on doors up to 3 m wide

Twin Panel. 50/50

Triple Panel. 33/33/33

Triple Panel. 25/50/25

Quad Panel. 25/25/25/25

STEP TWO

2. Choose your composite aluminium sheeting colour from a range of solid and metallic colours. Ask your consultant to view the full range.

Note: The colour chart and samples shown are some of the colours available. We recommend the viewing of actual composite aluminium samples and the Interpon powdercoat colour chart before final selection.
