

THE CENTURION GARAGE DOOR **LATCH LOCK** KEEPING YOUR FAMILY SAFE AND SECURE

Want the ultimate security for your family? Garages are common places for thieves to enter houses and in the past, they have not been particularly secure. At Centurion Garage Doors this is not the case. The safety of your family is as important to us as the safety of our own families. That's why we designed the Centurion Latch Lock.

The Centurion Latch Lock is one of the most secure Sectional Garage Door Locks available on the market. When closing the garage door it lifts up and over the latch, hooking into position which makes it impossible for anyone to lift the garage door manually, or manipulate the lock.

- **Security**
- **Safety**
- **Low Cost**
- **Effective**

COMPARE!

Compared to other types of locks such as the side pin locks that are supplied by several other manufacturers, the Centurion Latch Lock comes in at roughly a quarter of their price, providing you that peace of mind for a minimal cost.

UPGRADE NOW!

Upgrade to the Centurion Sectional Garage Door Latch Lock today! For the minimal cost to upgrade you know that your money is well spent on keeping your house and family safe.
