

DOOR AUTOMATION

BUILT TO LAST . MADE TO PERFORM

STEVE CANNING

MARK CANNING

NOW THE LARGEST AUSTRALIAN OWNED GARAGE DOOR COMPANY!

Still Family Owned And Operated Since 1976.

“Centurion Garage Doors was founded by our father, Bill Canning, in 1976. Over the years, we have seen our company grow from modest premises in the suburbs of Perth, to now being the largest Australian-owned garage door manufacturer, with state-of-the-art facilities on both sides of the country.

We have invested tens of thousands of hours into research and development, and introduced multiple cutting-edge garage door features to the Australian market. To this day, we make it our goal to continue raising the bar for Australian garage door manufacturing standards by maintaining our strong focus on innovation.

By supporting Centurion, you enable our family to continue it’s long-standing legacy for supporting Australian jobs and Australian innovation.”

STEVE CANNING

MY CG DOOR SMARTPHONE APP

The new Centurion app allows you to let people into your garage in a way that is safe, secure, and **completely contactless!** You can receive that urgent parcel delivery and close the garage door once the parcel is safely inside without even having to get up from your couch! It's the ultimate control over your garage door, with superior monitoring for that additional peace of mind.

Featuring In-built Camera!

See a bird's eye view of the inside of your garage in real-time through your app.

ULTIMATE CONTROL

- Receive push notifications about your garage door status, including real-time activity log and the ability to customise individual user settings.
- Receive alerts and notifications about your garage door, so that you know your home is always secure.
- Allow contactless access to your garage for parcel & goods delivery, trade access, etc.
- Track the health of your garage door so you will know when it is next due for a service.
- Give temporary access to your gardener, cleaner, babysitter, or any other visitors, then revoke the permissions when they're done. You don't even have to be home!
- No more worrying about losing the remote or having to buy a replacement. Lost or stolen remotes can be deactivated with just the swipe of a button on your Centurion app.

PRO

SECTIONAL DOOR OPENER

Cost effective and reliable model.

WIFI UPGRADE

TECHNICAL SPECS

Motor Power: 800N

Max door area: 14m²

Max speed: 140mm/s

Standard Door Height:
2400mm

Max Door Height: 2900mm

Other features:

- Soft Stop/Start function
- Safety Obstruction Sensing (Auto-reverse)
- Release mechanism for manual operation
- User-friendly controls
- Courtesy LED light

2 x remotes

1 x wall button

Suitable for most residential Tilt and Sectional Overhead Doors up to 14m². The Centurion pro features a belt drive system that is designed to be super quiet.

SUITS ALL GARAGES

All units have an adjustable mounting system, which can be adjusted up or down the rail to line up perfectly with ceiling mounting points.

SUPER QUIET BELT DRIVE

Rail options include steel and aluminium and are designed to be durable and quiet. Aluminium rail upgrade features failsafe mechanical lock for extra security.

USER-FRIENDLY CONTROLS

User-friendly digital display with color coded control buttons.

COURTESY LED LIGHT

Automatically activates each time you use the door. Can also be independently activated by remote hand transmitter.

ACCESSORIES

WIRELESS WALL BUTTON

Easy to mount wall remote with all the same features of multifunction remotes.

4 BUTTON MULTI FUNCTION REMOTES

Encoded with modern code hopping technology so that the code to your door cannot be scanned or copied. Compact and ergonomic design with powerful transmitter for extended range.

POWERFUL UPGRADES

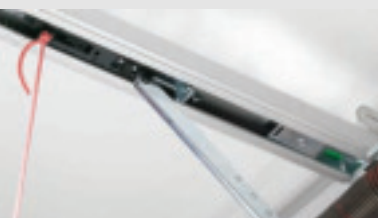

WIRELESS KEYPAD

Waterproof for external installation. Use a secure 4 digit pin code to operate your door. Ideal for allowing the kids or visitors into the house securely.

OBSTACLE DETECTION SYSTEM

Protect your family with Safety Beams. As soon as an object or person moves through the invisible safety beam, the garage door will stop and reverse to avoid serious injury or damage.

AUTO-LOCK ALUMINIUM RAIL

This rail features a failsafe mechanical lock, which is automatically engaged once your door is closed. This rail option is a cost-effective security upgrade for your family's protection and peace of mind. Featuring anodised aluminium, this rail option is ideal for all seaside areas, where corrosion is high.
