HOW TO CODE SECTIONAL DOOR HAND TRANSMITTER: MODEL SDO4

1. Here is how to code the remote handset or wall station for the Avanti or Centurion SDO4.

2. Always make sure you have a safe means of working at height because you will need to comfortably reach the control panel on the back of the opener.

3. Briefly press the RED button, the opener light will flash and bu will appear on the control panel.

4. Press and hold the top button on your hand transmitter. The opener light will flash rapidly and you are all done.

5. If you have more than one hand transmitter or wall button to code, simply repeat this process.
